

Our Papers

Our fine cotton papers have been described by our customers as deliciously mouth-watering, a mixed metaphor to be sure, but an apt one nonetheless! We have selected plush papers that will impress beautifully under the weight of the metal printing plates of our antique press, ensuring that the unique indentation created by letterpress printing is shown off to full, show-stopping effect.

100% Cotton papers

English Printmaking paper

100% cotton English printmaking paper, imported from one of England's oldest paper mills. Mouldmade and acid-free. A very strong, yet soft and gentle, paper. Sounds dreamy, doesn't it?

This paper is available exclusively through The Letterpress Company.

Crane's Crest

Crane's Crest 100% cotton paper, imported from one of the USA's oldest mills. Acid-free and archival quality. A stationery paper with decidedly patrician roots and a muchcovetted watermark.

Cotton rich papers

Savile Row

Savile Row cotton rich paper, imported from Italy. Acid-free and archival quality. With a sensual fabric feel, this paper is known for its unique "smooth-roughness".

Canevas **sorry! no longer available** **discontinued by supplier**

Canevas cotton rich paper, imported from a French paper mill that writes the rules and then breaks them. Inspired by poetry and philosophy, unexpectedly weighty, boldly textured.

Passionate, postmodern paper, anyone?
